

# BEAR BRANCH, KY

APRIL 24-28, 2024

In an area already challenged by poverty, job losses, population decline, and rugged terrain, the people of Eastern Kentucky were dealt a hard blow in July 2022. Massive floods came through and made the housing crisis even worse.

Both Big Creek campus locations are located near areas in dire need of assistance, and skilled work teams will be needed for many months and years to come. Big Creek is currently assessing the best use of the men from FBC. The project could be roofing, framing, flooring or other specialized work. Our work project will be finalized sometime in March.
